

ADMINISTRATION OF MEDICATION POLICY

RATIONALE:

If a student requires medication, Findon Primary School encourages parents/caregivers to arrange for the medication to be taken outside of school hours. However, Findon PS understands that students may need to take medication at school or school activities. To support students to do so safely, Findon PS will follow the procedures set out in this policy.

This policy applies to the administration of medication to all students. It does not apply to:

- the provision of medication for anaphylaxis which is provided for in our school's Anaphylaxis Policy
- the provision of medication for asthma which is provided for in our school's Asthma Policy
- specialised procedures which may be required for complex medical care needs.

AIM:

To explain to parents/caregivers, students and staff the processes. Findon PS will follow to safely manage the provision of medication to students while at school or school activities, including camps and excursions.

IMPLEMENTATION:

Authority to Administer

If a student needs to take medication while at school or at a school activity:

- Parents/caregivers will need to arrange for the student's treating medical/health practitioner to provide written advice to the school which details:
 - the name of the medication required
 - the dosage amount
 - the time the medication is to be taken
 - how the medication is to be taken
 - the dates the medication is required, or whether it is an ongoing medication
 - how the medication should be stored.
- In most cases, parents/caregivers should arrange for written advice to be provided in a Medication Authority Form which a student's treating medical/health practitioner should complete.
- If advice cannot be provided by a student's medical/health practitioner, the Principal (or their nominee) may agree that written authority can be provided by, or the Medication Authority Form can be completed by a student's parent/caregiver.
- The Principal may need to consult with parents/caregivers to clarify written advice and consider student's individual preferences regarding medication administration (which may also be provided for in a student's Student Health Support Plan).

Parents/caregivers can contact the office/ school nurse for a copy of the medication authority form.

Administering Medication

Any medication brought to school by a student needs to be clearly labelled with:

- the student's name
- the dosage required
- the time the medication needs to be administered.

Parents/caregivers need to ensure that the medication a student has at school is within its expiry date. If school staff become aware that the medication a student has at school has expired, they will promptly contact the student's parents/caregivers who will need to arrange for medication within the expiry date to be provided.

If a student needs to take medication at school or a school activity, the Principal (or their nominee) will ensure that:

1. Medication is administered to the student in accordance with the Medication Authority Form so that the student receives their correct medication, in the proper dose, via the correct method (for example, inhaled or orally), at the correct time of day.
2. A log is kept of medicine administered to a student.
3. Where possible, two staff members will supervise the administration of medication.
4. The teacher in charge of a student at the time their medication is informed that the student needs to receive their medication and if necessary, releases the student from class to obtain their medication.

Self Administration

In some cases, it may be appropriate for students to self administer their medication. The Principal may consult with parents/caregivers and consider advice from the student's medical/health practitioner to determine whether to allow a student to self administer their medication.

If the Principal decides to allow a student to self administer their medication, the Principal may require written acknowledgement from the student's medical/health practitioner, or the student's parents/caregivers that the student will self administer their medication.

Storing Medication

The Principal (or their nominee) will put in place arrangements so that medication is stored:

- securely to minimise risk to others
- in a place only accessible by staff who are responsible for administering the medication
- away from a classroom (unless quick access is required)
- away from first aid kits
- according to packaging instructions, particularly in relation to temperature.

For most students, Findon PS will store student medication, in the medication cupboard, in the First Aid room or the medication space in the staffroom fridge.

The Principal may decide, in consultation with parents/caregivers and/or on the advice of a student's treating medical/health practitioner:

- that the student's medication should be stored securely in the student's classroom if quick access might be required
- to allow the student to carry their own medication with them, preferably in the original packaging if:
 - the medication does not have special storage requirements, such as refrigeration
 - doing so does not create potentially unsafe access to the medication by other students.

Warning

Findon PS will not:

- in accordance with Department of Education and Training policy, store or administer analgesics such as aspirin and paracetamol as a standard first aid strategy as they can mask signs and symptoms of serious illness or injury
- allow a student to take their first dose of a new medication at school in case of an allergic reaction. This should be done under the supervision of the student's parents/caregivers or health practitioner
- allow use of medication by anyone other than the prescribed student except in a life threatening emergency, for example, if a student is having an asthma attack and their own puffer is not readily available.

Medication Error

If a student takes medication incorrectly, staff will endeavour to:

Step	Action
1.	Follow first aid procedures outlined in the student's Health Support Plan or other medical management plan, if required.
2.	Ring the Poisons Information Line, 13 11 26 and give details of the incident and the student.
3.	Act immediately upon their advice, such as calling '000' if advised to do so.
4.	Contact the student's parents/caregivers or emergency contact person to notify them of the medication error and action taken.
5.	Review medication management procedures at the school in light of the incident.

In the case of an emergency, school staff may call '000' for an ambulance at any time.

COMMUNICATION

This policy will be communicated to our school community:

- During staff induction processes
- Available publicly on our school's website At staff briefings/meetings as required
- At family information nights/sessions, and
- Made available in hard copy from school administration upon request

EVALUATION:

This policy shall be reviewed as part of the school's three year policy and process review.

MEDICATION AUTHORITY FORM

For students requiring medication to be administered at school

This form should, ideally, be signed by the student's medical/health practitioner for all medication to be administered at school but Findon PS may proceed on the signed authority of parents in the absence of a signature from a medical practitioner.

- **Separate plans are required for students with asthma and anaphylaxis**

Please only complete the sections below that are relevant to the student's health support needs. If additional advice is required, please attach it to this form.

Please note: wherever possible, medication should be scheduled outside school hours, eg medication required three times daily is generally not required during a school day – it can be taken before and after school and before bed.

Student Details

Name of school: _____

Name of student: _____ Date of Birth: _____

MediAlert Number (if relevant): _____

Review date for this form: _____

Medication to be administered at school:

Name of Medication	Dosage (amount)	Time/s to be taken	How is it to be taken? (eg oral/topical/injection)	Dates to be administered	Supervision required
				Start: / / End: / / OR <input type="checkbox"/> Ongoing medication	<input type="checkbox"/> No – student self-managing <input type="checkbox"/> Yes <input type="checkbox"/> remind <input type="checkbox"/> observe <input type="checkbox"/> assist <input type="checkbox"/> administer
				Start: / / End: / / OR <input type="checkbox"/> Ongoing medication	<input type="checkbox"/> No – student self-managing <input type="checkbox"/> Yes <input type="checkbox"/> remind <input type="checkbox"/> observe <input type="checkbox"/> assist <input type="checkbox"/> administer

Medication delivered to the school

Please indicate if there are any specific storage instructions for any medication:

Medication delivered to the school

Please ensure that medication delivered to the school:

- Is in its original package
- The pharmacy label matches the information included in this form

Supervision required

Students in the early years will generally need supervision of their medication and other aspects of health care management. In line with their age and stage of development and capabilities, older students can take responsibility for their own health care. Self-management should be agreed to by the student and their parents/caregivers, the school and the student's medical/health practitioner.

Please describe what supervision or assistance is required by the student when taking medication at school (e.g. remind, observe, assist or administer):

Monitoring effects of medication

Please note: School staff **do not** monitor the effects of medication and will seek emergency medical assistance if concerned about a student's behaviour following medication.

Privacy Statement

We collect personal and health information to plan for and support the health care needs of our students. Information collected will be used and disclosed in accordance with the Department of Education and Training's privacy policy which applies to all government schools (available at: <http://www.education.vic.gov.au/Pages/schoolsprivacypolicy.aspx>) and the law.
